

The background of the slide is a faded, light-colored reproduction of the painting 'Landing of the Pilgrims' by Charles Lucy. A 100-Word Paragraph Against Socialism

In the early 1600s, settlers at both Jamestown and Plymouth initially sought to produce food and wealth according to a communal system. Workers contributed the fruits of their labors to a “common store” on which all relied. This approach pushed both settlements to the brink of starvation. The people knew they would starve if they continued operating this way, so they assigned land directly to individuals and families, who then could reap the benefits of their own work. After this change, both communities prospered. History proves socialism leads to bondage and misery, and that free enterprise promotes freedom and prosperity.
